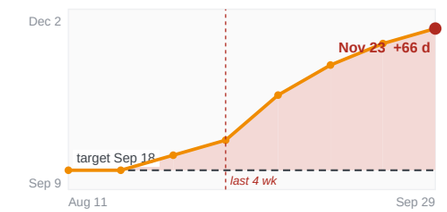
Exception initiatives — slipping for more than three weeks (5)

rule: forecast moved later in 2+ of the last 4 weekly refreshes and net later over the window · ordered by net slip · badge numbers match the rows above

1 Board metrics definition — RED

Gantt row 28 · owner Sam

Target milestone: Board metrics definition completed



66	4 of 4	+52 d
days late vs target	refreshes slipped	net over 4 wks

Weekly moves (last 4): +21 d, +14 d, +10 d, +7 d

Since first tracked Aug 11: forecast Sep 18 to Nov 23 (+66 d)

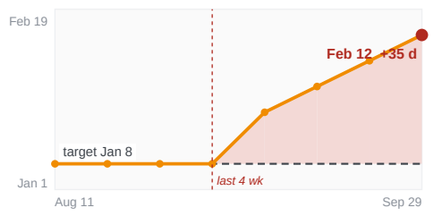
Cause of change (workbook, verbatim):

"Slip due to working group not yet convened on revised scope"

2 Capitalisation policy update — RED

Gantt row 40 · owner Sam

Target milestone: Capitalisation policy update completed



35	4 of 4	+35 d
days late vs target	refreshes slipped	net over 4 wks

Weekly moves (last 4): +14 d, +7 d, +7 d, +7 d

Since first tracked Aug 11: forecast Jan 8 to Feb 12 (+35 d)

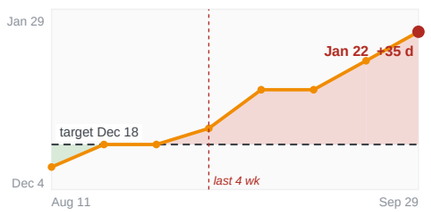
Cause of change (workbook, verbatim):

"Slip due to team diverted to priority-zero work"

3 Contractor rate renegotiation — RED

Gantt row 31 · owner Maria

Target milestone: Contractor rate renegotiation completed



35	3 of 4	+30 d
days late vs target	refreshes slipped	net over 4 wks

Weekly moves (last 4): +12 d, 0 d, +9 d, +9 d

Since first tracked Aug 11: forecast Dec 11 to Jan 22 (+42 d)

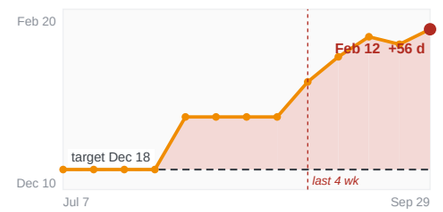
Cause of change (workbook, verbatim):

"Slip due to legal review queue; expected to recover"

4 Preventive maintenance program — RED

Gantt row 20 · owner Nikhil

Target milestone: Preventive maintenance program completed



56	3 of 4	+21 d
days late vs target	refreshes slipped	net over 4 wks

Weekly moves (last 4): +10 d, +8 d, -3 d, +6 d

Since first tracked Jul 7: forecast Dec 18 to Feb 12 (+56 d)

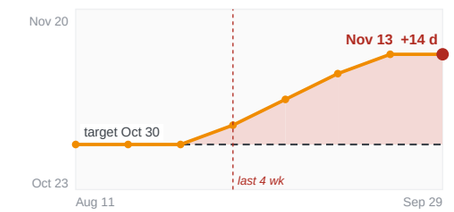
Cause of change (workbook, verbatim):

"Slip due to vendor parts lead time; expediting order placed"

5 Spares inventory optimisation — WATCH

Gantt row 23 · owner Nikhil

Target milestone: Spares inventory optimisation completed



14	3 of 4	+11 d
days late vs target	refreshes slipped	net over 4 wks

Weekly moves (last 4): +4 d, +4 d, +3 d, 0 d

Since first tracked Aug 11: forecast Oct 30 to Nov 13 (+14 d)

Cause of change (workbook, verbatim):

"No change"
